														Core Rules are required for Human Service Programs, listed in R501-2-14. Where there is duplication of review by another oversight agency, the Office of Licensing, shall accept that documentation as proof of compliance. Pursuant to 62A-2-106, the Office of Licensing will not enforce rules for licensees under contract to a Division in the Department of Human Services in the following areas:

The reports below are from staff around when the incident occurred. The actions taken outline our response to the run and our continued efforts to find the two clients.</p> <p>From [REDACTED] I was in the kitchen getting things going for dinner with [REDACTED] (staff), getting it all lined out and wanted to go do rounds and check and make sure staff were where they should be, etc. Just as I was headed out [REDACTED] knocked and I opened the door. He said the two clients were gone and he had checked the whole downstairs so we ran and checked all again. This was between 510-515pm. He showed me where he was and there was no way they went out of the room. So we checked the window and no alarm went off when we opened it. So we hurried and did a sweep of the entire building. Then went outside and did a perimeter check all around the building and yurts, under the deck, etc. We ran to the top of dry lakes and I called [REDACTED] at 525pm. He told me to call [REDACTED] and so I did that. We put the building on lockdown so all boys and staff in the dining area. No one to leave that area. [REDACTED] and I drove around looking for tracks per [REDACTED] direction. We drove around the yurts, the horses, down to the monuments sign and on the Brian Head road. That's when I received a radio transmission and kept searching from there on out. We had 2 staff [REDACTED] and [REDACTED] head out on foot which and had [REDACTED] and [REDACTED] stay back with the rest of Monuments students. It had been actually a good day with all the boys on my end. Most were contained in the dining/living room most of the day before this incident occurred.</p> <p>From [REDACTED] I was watching the boys play Pokemon in their room at about 5 00pm and all was fine. I was two steps from the doorway by the exit door [REDACTED] kept going to the bathroom and making it known to me that he was concerned about how often he had to use the bathroom around the same time. I had just looked at the boys</p>

On our way down the mountain we encountered a complicated issue where one of the boys started to feel sick. One of the other staff mentioned to me while I was driving down canyon road (UT 143) that █████ was throwing up all over the back seat of our van. I quickly pulled over and helped █████ get him out of the side doors to continue to throw up. We both noticed he started to look a little loopy which didn't seem normal. He quickly went from bad to worse when he started to go in and out of consciousness and also showed symptoms of slurred speech. We quickly realized that this situation was going to get worse until we got him to the proper medical care. On the way to the Cedar City emergency room his symptoms got a little worse so we pulled over to call 911 emergency. After we called we were instructed by dispatch to get him out of the van and lay him on the ground, we promptly did so. 5 minutes after we called dispatch the Parowan UT police showed up on scene to help with the situation. 10 minutes after we called dispatch the Ambulance showed up to take over the situation. He was taken to the Cedar City hospital where he was cared for until the symptoms passed. It was determined at the hospital that █████ had ingested Rubbing alcohol. █████ was treated and released from the hospital the same day.	1
